

ISS CLEANERS!

Stand up for your RIGHTS. SUPPORT Mary's Campaign

Injured at work, refused annual leave, no sick pay, booked off duty without pay, sacked, reinstated, then sacked again

RMT local rep Mary's crime was to sit down after finishing her work while she was waiting for the train doors to be opened. (Cleaners are instructed that they must not sit on the train seats that they clean.) She was photographed – without her consent - sitting on a train with her head back and her broom in her hand waiting to get off the train. There was no complaint about her work.
