

SPOT THE DIFFERENCE

A campaigning, fighting and democratic trade union

THANKS TO YOU - SOLIDARITY WINS

The RMT members on the Bakerloo and Northern lines who voted for industrial action and who took two days strike action for Eamonn Lynch and Arwyn Thomas are to be congratulated. Those drivers who took strike action on the night shifts on Sunday 20th of June are to be commended.

Every driver in every depot who backed the union's campaign to escalate this dispute across the combine should also take great pride in having helped to bring about justice for our two victimised colleagues.

Those ASLEF members who respected picket lines and who demonstrated their solidarity with the RMT's campaign to stop the victimisations on the Tube are to be applauded. You have earned our deepest respect and your actions will not be forgotten.

The sackings of Eamonn Lynch and Arwyn Thomas came about because they were hard-working trade union activists whose only crime was to represent their members. A court of law ruled that London Underground lied, colluded and covered up in order to sack our workmates.

It was the principled determination of drivers across the whole of the combine which ensured that both men were reinstated and are back at work where they belong.

The RMT salutes your solidarity.

Make sure you have the protection of a fighting and democratic trade union.
